When You Move Forward, We Give Back.

Zebra and SMG3Rx Will Make a \$5 Contribution to the American Red Cross for Every Healthcare Scanner Purchased

Help Zebra and SMG3Rx reach their goal to donate \$50K to American Red Cross.

Communities across the country count on the American Red Cross for help every day – and supporting those communities is at the heart of what they do. As a humanitarian organization, the American Red Cross is committed to helping others in meaningful ways during this pandemic. For a limited time, the American Red Cross is testing all blood, platelet and plasma donations for COVID-19 antibodies to provide their donors with valuable insight into whether they may have been exposed to this virus.

Zebra and SMG3Rx are dedicated to helping the American Red Cross deliver their lifesaving mission. They're also committed to recognizing the essential contributions of healthcare workers who use Zebra scanners on the frontlines of the COVID-19 crisis. To support the American Red Cross in testing all blood donations for COVID-19 antibodies and honor healthcare workers during this critical time, Zebra and SMG3Rx will donate \$5 to the American Red Cross for every qualifying healthcare scanner purchased through September 26, 2020.

Now, when you upgrade your scanners to help your care teams improve patient outcomes, you'll also be helping the American Red Cross provide important information about COVID-19 to blood donors and public health organizations across the country.

Improving Patient Safety, One Scan at a Time

Zebra's purpose-built healthcare scanners stand up to the hospital environment—including frequent sanitization with the most aggressive disinfectants—and deliver unmatched performance that captures even the most challenging barcodes the first time, every time.

DS4600 Series

Scanning Versatility for The Whole Hospital

A high-resolution sensor and Zebra's exclusive PRZM Intelligent Imaging technology deliver flawless 1D/2D barcode scanning on medicine bottles, IV bags, syringes, and more.

DS8100 Series

Premium Healthcare Scanner

The premium handheld 1D/2D scanner includes corded and cordless options that deliver unparalleled performance on virtually every barcode, no matter the condition.

Upgrade to scanners purpose-built to improve patient safety in healthcare and get up to \$25 cash back through the GO Zebra Trade-In Program

Support the American Red Cross when you upgrade to scanners purpose built for the healthcare environment.
